# About Nunavut

## Nunavut “Our Land”

2021 marks the 22<sup>nd</sup> anniversary of Nunavut becoming Canada’s newest territory. The word “Nunavut” means “Our Land” in Inuktut, the language of the Inuit, who represent 85 per cent of Nunavut’s resident’s.

The creation of Nunavut as Canada’s third territory had its origins in a desire by Inuit to have more say in their future. The first formal presentation of the idea – The Nunavut Proposal – was made to Ottawa in 1976. More than two decades later, in February 1999, Nunavut’s first 19 Members of the Legislative Assembly (MLAs) were elected to a five year term. Shortly after, those MLAs chose one of their own, lawyer Paul Okalik, to be the first Premier.

The resulting government is a public one; all may vote - Inuit and non-Inuit, but the outcomes reflect Inuit values. For instance, few southern governments would have Departments of Culture and Heritage. More amazingly, the Nunavut Legislative Assembly operates a “consensus government” which means there are no political parties.

Total population of Nunavut is approximately 38,396 people spread over 25 communities and 1,877,787.62 sq km of land. Of the residents of Nunavut almost 75% are under 40 years old.

Nunavut has supported a continuous indigenous population for over 4,000 years.

Paleo-Inuit Culture: 2500 BC to 1500 BC  
Pre-Dorset Culture (‘Saqqaq’): 2500 BC to 500 BC  
Dorset Culture (‘Tuniit’ or ‘Sivullirmiut’): 500 BC to 1500 AD  
Thule Culture (Proto-Inuit): 1000 AD to 1600 AD  
Inuit Culture (Inuit): 1600 AD to present-day

# About Nunavut

## Nunavut “Our Land”

People in Nunavut don’t live in igloos, although the word igloo is the Inuktitut word for home.

## Daylight & Darkness

Depending where you live in Nunavut, you could experience 24 hours of daylight in the Summer months. Like in Grise Fiord, Nunavut’s most northern community, you could also experience 24 hours of darkness in the Winter months.

The main industries in Nunavut are arts & crafts, mining, fishing, hunting and trapping.

## Arts & Crafts

Nunavut is known around the world for prints and carvings, however many other art is produced throughout the territory including tapestries, wall hangings, fashion and jewelry. There are approximately 2,500-3,000 active artists in Nunavut.

## Tourism

Nunavut is home to many once in a lifetime tourism packages like the floe edge where you can experience life where the ice meets the open ocean. From April through July in Nunavut, Arctic wildlife gathers in abundance along the floe edge — including walruses, seals, polar bears, narwhals, bowhead and beluga whales, plus an astonishing variety of birds. It is a time of great celebration for the Inuit people.

## Polar Bears

The polar bear can run up to 40 km/h for short distances and have been known to swim up to 96 km. Nunavut is home to half the world’s population of polar bears.

# Toonik Tyme Festival

When Toonik Tyme started in 1965, the festival consisted of traditional Inuit games, throat singing and dancing, a community feast and an evening of dancing and music at Toonik Lake.

Each year the Toonik Tyme Society, local organizations and businesses, and over 100 volunteers work together to provide Iqalumiut and visitors with a cultural festival that celebrates the arrival of spring with a number of traditional activities that reflect Inuit Qaujimajatuqangit. The festival includes events that are highly anticipated by our community, Nunavummiut and visitors as an outstanding opportunity to bring families and friends together to participate in traditional Inuit activities and recreational games that reflect and preserve Inuit culture and heritage while providing a platform for Inuit to celebrate as well as to share Inuit culture with non-Inuit residents and tourists.
